Other Joining Details	Ewes have not had access to Rams			
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.

Assessor Comments	A very neat line of predominately third cross to pure Dred dorper and white Dorper Ewes. At assessment there were 56 two teeth and 30 milk teeth. All two teeth Ewes were very freshly broken. There is 43 black head Ewes, 1 straight black Ewe and 42 white head Ewes. These Ewes have not had access to any Rams, and are in ideal joining condition. They are easy to handle quiet sheep, and have been born behind new ring lock and exclusion fences. Young Ewes with good shape and length, they will make excellent breeders for the vibrant meat sheep industry.
