Assessor Comments	A quality line of 3 & 4yrs old Grass Merino blood ewes with first cross lambs at foot sired by the New Armatree Super Borders. These ewes are carrying a 6 month skin of bright white medium type wool, and they have been crutched. All ewes that were mouthed had 6 teeth similar to the photo, 1 ewe was noted with a green ear tag, but mouthed the same. The ewes are doing a great job on their lambs, with the lead well on their way to being suckers. The lambs have had their tails docked with a Tepari Patesco Docking Iron, which bares the tip of the tail for ease of management moving forward [see photo]. The ewes are NSM, and most are carrying sufficient condition to rejoin in the near future to the ram of your choice. Please note, approximately 6 lambs look to be sired by a Merino ram, and 1 ewe has dried fly strike on the crutch. Please reference photos
