Assessor Comments	A credit to the vendor/breeder,these ewes present extremely well with years of top Ram selection and hard classing evident.These ewes are of good frame with plenty of depth and length.At 9 months these ewes cut 6.5kg of 19 mic wool.All animal health is up to date with ewes being dipped in January with Assassin then drenched + Glanvac 6 in May.The vendor has always culled any ewe that has had body strike and the result of this has been very beneficial & in the last 4 years has not had any sheep with body strike on the place. These ewes come highly recommended and are ready to take the Ram.
