Assessor Comments	A lovely line of exceptionally bred young Roseville Park and Coddington Poll blood merino ewes. The Huntleigh flock of sheep have been on Roseville Park for 30 years and have infused Coddington Poll in the last 5 for increased carcass characteristics. The focus of the flock is too produce heavy cutting, deep bodied and fertile Merino sheep. Ewes will make ideal addition to any Merino self replacing flock or used as first cross or terminal matrons. At assessment a tail of 10% was removed from this mob. Observed 1 ewe with black markings around her eye.
