Assessor Comments	A well grown line of young ewes that have plenty of breeding in them and will continue to grow out into large frame ewes. Ewes were joined to a terminal and had the suckers removed and sold in late July. The ewes have bounded ahead since than, and would be ready to join straight away to a ram of your choice. Vendor has been on Genanegie Merinos for over 40 years and has a very high quality flock focusing on producing heavy wool cutting and large frame sheep. These ewes would be a welcome addition to any flock, or ideal for use with terminal sire to produce fast growing export lambs into the future. Please note- the odd ewe has a slight horn and long toes. Any dirty ewes will be bunged prior to delivery
