| Vendor Comments              | Annual turn off of excess ewes. A little light in condition due to a late break and a cold winter. Have certainly improved since shearing and seeing some sunshine.                                                                                                                                                                                                                          |

| Assessor Comments            | Very stretchy ewes ready to take out and prepare for a late spring joining. These ewes will be very big plain bodied sheep given the right feed and an opportunity. They would suit joining to a terminal or first cross sire.                                                                                                                                                               |
