Assessor Comments	These ewes are on the do. at assessment these ewes had been in and out of the shearing shed for 3 days prior to them been assessed waiting to be crutched. The true protentional in these ewes will only improve daily as they are running on good feed. They are showing good stretch and frame for their age and have always performed well. Very good dual purpose ewe for both wool and meat traits. Surplus to requirements these ewes would suit any purchaser. Highly recommend to any merino or xb flock. Vendor also has a line of 5 1/2 year old ewes in this sale. Vendor runs Pinehill livestock Carriers so can deliver both locally or interstate at purchaser cost on arrangement.
