Assessor Comments	234x J/J 2020 Drop, Toorackie Bld, Aug Shn, M&TS. OJD Vaccinated. A very good quality line of ewes that will not disappoint, these ewes are very large frame, with plenty of weight for age. These ewes also cut plenty of white crimp wool. These ewes would suit any environment and any program. A big portion of this mob still have their lambs teeth. I can highly recommend these ewes to be very profitable. *Note 2 head with horn* can remove at buyers request.
