Assessor Comments	Opportunity knocks!! These ewes are straight out of the heart of Pindari Stud as surplus young ewes and offer the purchaser the opportunity to secure some very sound, quality Dohne genetics. These ewes are paddock run in the saltbush country of Whyte Yarcowie. The flock is bred using quality rams from the Pindari stud and these genetics are flowing through into the younger ewes on offer here. These ewes will mature into deep bodied breeding ewes that already have very good structure and bone, equally suitable for terminal lamb production as well as self replacing Dohne operation. The Dohne ewes at Pindari lambed at an average of 118% this year and weather lambs were slaughtered domestically and yielded 50.5%. Ewes Should be bought with total confidence.
