Cows were good to handle throughout assessment. All cows flowed easily in back yards & force. 2 cows become agitated in weigh station, soon settling when released & united with mob. Cows were quiet to handle in backyards & holding paddock whilst on foot, being blocked & manoeuvred when being photographed & videoed.

Assessor Comments

11 - Angus Cows with 11 Angus sired calves at foot. Cows present in healthy forward store condition, calves are unmarked presenting in healthy fresh condition. Cow have not had the opportunity to rejoin. All cows were mouthed at assessment & noted as broken mouths, ranging from missing teeth to completely worn. Given the opportunity to continue grazing soft improved pasture it would be expected these units will become an attractive trade option.
