Assessor Comments Excellent vendor bred line of 2 year old EU Accredited Angus females, scanned in calf to Angus bulls to commence calving early March for their first calf. The "Glen Collin" cows enjoy a great reputation for their "doing" ability and capacity to put calves on the ground. Ultimately these cattle are bred for their performance in feedlots or EU / MSA slaughter markets. They are a good even line of young productive females with their entire breeding life ahead of them. Vendor is only selling them as they do not have any Autumn calving females in the herd. Note: odd cloudy eye not detrimental.
