Assessor Comments	Excellent vendor bred line of 3-7 year old EU Accredited Angus females, scanned in calf to Angus bulls to commence calving early March for 8 weeks. The "Glen Collin" cows enjoy a great reputation for their "doing" ability and capacity to put calves on the ground. Ultimately these cattle are bred for their performance in feedlots or EU / MSA slaughter markets. These females where scanned empty back in autumn 2021 due to a bull break down and were retained and rejoined for an Autumn calving. Vendor is only selling them as they do not have any Autumn calving females in the herd. Note: odd cloudy eye not detrimental, 1 cow has a noticeable scar on her back leg from a blood wart being surgically removed by a vet, 1 cow has small bit of white on underside of jaw.
