Joining Details	Station Mated bulls put in: 10/05/2021 bulls taken out: 12/07/2021 (64 days) Bull Breed(s): Brangus To the vendors best knowledge, this lot has had no access to bulls or stags aside from stated joining period.		
Preg Tested?	Yes, this lot was pregnancy tested, by Barend Cronje (Non-Vet Contractor) on 18/10/2021. 76 Head (100%) PTIC, from 3 to 5 months (at time of assessment). Certificate Available.		

Temperament	Yards	Crush	Paddock
	Quiet: 68 head Slightly Stirry: 8 head	Quiet: 56 head Slightly Stirry: 20 head	Temperament not assessed in Paddock
	Heifers are good to work in yards, are handled everyday moving between paddocks and are well trained. A number of Heifers did stir up when handled in the crush. Heifers were quite pleasant to take photos of.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	On offer are a BEAUTIFUL line of 76 Charbray & Charbray X PTIC Heifers that are 18-30 months of age and average a curfewed weight of 401kg. Heifers age brands are half #0 and half #9 which makes them 1.5 to 2.5 years old. These Heifers were purchased from a northern breeder in March this year and have since been joined to a quality Brangus bull for 8 weeks from the 10th of May until the 12th of July. Heifers are Preg tested 3-5 months in calf and are set for early march to start calving. Heifers are well boned and show great frame and are the ideal nice style cattle to own. Young Heifers in calf to there 1st calf which would be suitable to trade or most certainly breed with in the future. Heifers are predominantly Charbray with a percentage being more brahman type cattle. Please see breed status for more information & Horn status to see more information (large percentage of Heifers have been dehorned at a young age). Great opportunity to purchase some high class young breeders.		
Assessor	Ryan Browne (Level 3 Accredited)
