Assessor Comments	A well bred line of A/c the Breeder, medium framed Angus 1st Calvers with marked calves at foot 7-11 weeks. This article would be ideal for somebody looking to obtain a small mob of future breeders with an opportunity to grow out some quality Angus calves. Calves all marked & 5in1 Vaccinated. There is one Grey Heifer , two Black Heifers with white tail & belly. In the calves there is one Grey & nine Black calves , two of which have white markings. This colouring is from a Charolais cross in the cows some years ago. The heifers are strong and healthy and doing an excellent job on their calves , All have been running back to the same Angus Bull since calving .
