	Cattle handled well as a mob. Odd animal slightly agitated when under pressure or in the crush.2 heifers showing a bit of alertness & run in them .					
Handled With	Bikes , Vehicles					
Assessor Comments	OPPORTUNITY NOT TO BE MISSED. A great opportunity to put together Quality Young Angus females with Calves at Foot from a highly regarded Angus herd. There are a total of 50 x 50 Heifers with calves at Foot to be sold in 2 lines . These Heifers are NSM & ready to join to your Bulls .(actively cycling at assessment) These Angus Heifers are just cleaning up in the coats after coming out of a cold wet Tablelands Winter . Heifers averaged: 531kg full at assessment (469-634kg). Calves averaged: 147kg (101-221) These Heifers are showing all the attributes of the Quality Angus Breeding Program used for the past 30 years. Heifers are showing good frame & will develop into wonderful Matrons. Heifers are in there working clothes with good udders & doing a good job on the calves. (1 calf noted as drier & rougher in the coat than others) NOTE: These Heifers have only been selected out of the herd as they are showing some white on the udders . 1 Heifer with white to the Navel (See Photo)
