	Cows generally behaved well. They were yarded with other cows and calves overnight. They were weighed on a platform in the draft box and as such had plenty of room to move. The the few cows that did tail flick and stamp settled reasonably well once the pressure was relaxed and they were back in their mob.					
Handled With	Bikes , Vehicles					
Assessor Comments	A good line of Hereford/ Poll Hereford PTIC Cows and Calves. The cows are predominantly first calf heifers, however their is one mature cow in the group. The cows are in mostly store condition and are carrying themselves well. On inspection most toes and feet were in very good order. The cows are PTIC to Bongongo Bulls. Also note that the cattle were assessed after being yarded overnight. Buyers please note the vendor has another 2 lots in todays sale.
