	Very quiet heifers to process and worked through the yards easily. One heifer got slightly agitated on the scales but settled very quickly once back with the mob

Assessor Comments	Vealer mothers of the future with these heifers displaying oodles of milk and it shows in the calves, with every calf fresh and sappy and have had a great headstart on their way to being the finished article in the vealer pens. Calves are by well bred Angus sires and averaged 100kg at assessment (range 65-145 kg) with their mothers presenting in store to fresh store condition coming out of a cool and damp South Eastern Slopes winter. Calves are marked and vaccinated and mothers are now ready to join to the successful purchaser's bull of choice.
