	Excellent females to handle right through the drafting and weighing process with 1 cow getting slightly agitated on the scales but settled quickly once back with the mob. Quiet mob of females that could be managed by handlers of all experience levels.					
Handled With	Bikes , On foot , Vehicles					
Assessor Comments	Classy line of young breeders with 25 years of Dunoon Angus in their breeding background and doing an excellent job on their young calves, displaying plenty of milk production to help turn these calves off with plenty of weight as weaners. Volume cows with plenty of spring of rib, they display years of quality breeding and would complement any existing herd or prove a great foundation for a future breeding operation. Only being offered as they are out of sync with their normal Autumn calving program. Predominantly second calvers, these quality young breeders have unmarked calves at foot by the Twynam Angus sire and are not rejoined from a breeding program that has produced noted performing cattle for decades. Note one calf has a broken baldy face, the balance are straight black face calves. Purchase with confidence.
