	Cattle were easy to handle and draft in the yards. Moving away from pressure easily and leading up through the race and onto the scales without any force or encouragement being required. Cattle that an experienced handler would not deem stirry at all, only that they tended to rush a bit through gate ways and move away from the handler in a slight hurry. Station bred cattle that were an easy mob to draft and weigh.					
Handled With	Bikes , Dogs , On foot , Vehicles , Polaris Buggy					
Assessor Comments	Good line of station bred females. Easy to handle throughout assessment. Exceptional mothers, doing a fantastic job rearing their last calves, and not taking lightly to the presence of dogs whilst having a calf at foot. Calves were all square and shiny and none looked to have ever missed a feed. These are proven, low maintenance mothers you can tip out in the paddock and trust to get the job done. Scanned up as over 4 months in gestation, Buyers please Note. 3minor eye blemishes noted in mob, 1 fresh & treated at assessment. A large percentage presented with whites flanks/udders. Please see photos & video for full contentment.
