Assessor Comments	Offering 9x9 vendor bred Angus heifers and calves. These heifers are being offered due to being spring calvers as the vendors concentrate on autumn calving. These heifers are the top of the drop that the vendors retained for themselves. These heifers were given the opportunity for the autumn calving but the bull broke down, they decided they were too good to be killed so they joined to another bull for the spring. The vendors have been breeding exceptional Angus cattle for the past 20 years and travel the land to source the right genetics. These heifers have very sappy calves at foot that are unmarked. Note a different family member has the same article being offered in the same sale. All breeding and sires are the same, running on the same property.
