	Very good to handle in their own familiar environment and yards. Ran to the mob when out in the laneway.		
Handled With	Dogs , Horses , On foot , Vehicles		
Assessor Comments	A nice line of EU Angus steer yearlings. 194 head in a tight range of 380-450kg. split over 3 lots as a a run out the gate. A nice line of steer calves showing plenty of stretch and quality expected from an outstanding herd. Note that a lighter offer & a further tail has been removed. Considered these easy to handle with loads of potential. in the run of 194 head there were 7 head in mob showing an old eye scar but not considered detrimental. 12 showing old ringworm scars. 11 head show a single down ear from a cartilage / tagging error. All are showing a rubbed winter coat but after both drench , vaccine and multimin they look primed to perform quickly on good feed and warmer weather. Please note there is an unlikely chance of a black hide Speckle /angus cross
