Assessor Comments

Quality line of Angus feeder steers. Weighted in a tight weight bracket from 400-470 kg at assessment. Top of the Drop of the Jeremiah steers showing exceptional weight for age & conformation. Vendors using Crawford & Onslow genetics, focusing on 400/600 day growth. The Jeremiah steers are always well sought after by feedlots, Bullock finishers and are well known for their doing ability. Please see vendors other line of 20 black baldy steers in same sale, opportunity to put a B-double of 86 steers back together. Two steers noted with slight blemish in one eye, still feedlot eligible. One steer noted with white on pizzle. Coming into warmer weather steers will clean up in the coat and continue to power the weight on given the right opportunities. Steers come highly recommend by agent. Please note steers were assessed at 3 sets of yards but will be combined prior to delivery.
