Assessor Comments	17 Angus Heifers, Vendor Bred - Spring Drop 2020, rising 10-11 months - Presenting in strong store/forward store condition with majority large frame - Good Temperament, yard weaned - NSM, no known access to any bulls on farm - Grass Fed/No Antibiotics, a signed PCAS non-certified supplier declaration is available from the vendor upon buyer request - Sound potential to go any direction with to join to bull of choice as potential future Angus breeders, to target a grass/grain fed fattening program or alternatively put on grain immediately/or background further to required entry weights for a select feeder market - These heifers come recommended by the agent as previous drafts have performed repeatedly well with weight gain/growth - Purchase with confidence a very sound line of Angus heifers - NOTE 3 Heifers were observed to some white underneath & 1 with some worts on neck, neither are considered detrimental
