Assessor Comments	A excellent line of feeder steers that presented in fresh forward store condition. This particular group are the tops of the drop and are showing great characteristics of being future heavy kill cattle. They are bred from Spry's composite bulls out of composite cows and come with some excellent hybrid vigor. Steers have also had their first dose of Bovilis MH-IBR on the 14/09/21. Steers are grass fed and antibiotic free. Please note: 5 steers within this line were marked late and presented with slight pizzle drop. Vendor also has a line of 82 feeder steers in today's sale.
