	Steers were fine to draft and assess, odd animal didn't enjoy confined space of crush. In paddock cattle are inquisitive and mill around people.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	Fantastic draft of young Angus steers that have real genetic quality, VB steers by Banquet bulls (focus on 400 & 600 day growth). PLEASE NOTE: 20 steers (Rennylea sired) not vendor bred, purchased as cows and calves. These boys have frame and no condition making the per kilo rate a secondary consideration, big weight gains await successful purchaser. Post weaning these steers had access to barley and faba beans fed in trough for 8 weeks. Bullock finishers should be making a strong play on these guys. Steers weighed 4/8 and have gained minimum 0.8 -1.6kg per day in this time. 2 steers cloudy in one eye.
