Weaners presented quiet with distance. When under pressure or in confined space cattle tended to stress and would want

Handled With	to get away from handler, cattle showed NO aggression when under these situations just stress. Bikes , On foot , Vehicles
Assessor Comments	A very good quality line of Limo & Limo x weaner steers consisting of 12 apricots & 4 blacks. Calves have great shape with a tight weigh range selected weighing from 225 - 293kg to average 263kgs at assessment. Steers had been treated with Cydectin and their Booster of 5in1 early August with a dose of Coopers Easydose late August. Steers show early stages of ring worm appearing around eyes. A great opportunity to purchase euro steers coming into a fantastic spring which will be ideal for future Trade weight slaughter.
