Temperament

Yards	Crush	Paddock
Quiet: 12 head	Quiet: 11 head	Temperament not assessed in
Slightly Stirry: 3 head	Slightly Stirry: 4 head	Paddock

These heifers were easy enough to to handle in the yard & weigh through the crush - It was noted that at least 4 heifers did become slightly stirry/nervous/agitated in the yard at times when under pressure or isolated - Not considered detrimental as all settled down in the yard & when let back out into the paddock as a mob back into their comfort zone

Assessor Comments

15 Angus Heifer Calves, Vendor Bred - Spring Drop 2020, rising approximately 10 -12 months - Presenting in strong store condition with sound medium/large frame - NSM, no known access to any bulls on farm - Grass Fed/No Antibiotics, a signed PCAS non-certified supplier declaration is available from the vendor upon buyer request - Sound potential to background further to joinable weights as future Angus breeding females, to target a grass/grain fed fattening program or alternatively to background further for required entry feeder weights - These heifers come recommended by the agent as previous drafts have performed repeatedly well with weight gain/growth and are presenting in their working clothes - Purchase with confidence, these heifers should respond favourably given feed coming through the spring - The vendor has 2 other lots of Angus heifers also listed in this sale
