Temperament

Yards		Crush	Paddock
Quiet: 12 head		Quiet: 10 head	Temperament not assessed in
Slightly Stirry: 2 head		Slightly Stirry: 4 head	Paddock

These heifers were easy enough to to handle in the yard & weigh through the crush - It was noted that at least 4 heifers did become slightly stirry/nervous/agitated in the yard at times when under pressure or isolated - Not considered detrimental as all settled down in the yard & when let back out into the paddock as a mob back into their comfort zone

Assessor Comments

14 Angus Heifer Calves, Vendor Bred - Spring Drop 2020, rising approximately 9 - 11 months - Presenting in strong store condition with medium frame - NSM, no known access to any bulls on farm - Grass Fed/No Antibiotics, a signed PCAS non-certified supplier declaration is available from the vendor upon buyer request - Sound potential to background/put away to take out to heavier weights for a specific fattening/feeder or breeder program - These heifers come recommended by the agent as previous drafts have performed repeatedly well with weight gain/growth - Purchase with confidence & optimism, these heifers should respond favourably given feed as they further mature/grow going through the spring with plenty of potential to 'do up' - NOTE 1 Heifer was observed to have an old pink eye scar/blue eye, not considered 100% detrimental - The vendor has 2 other lots of Angus heifers also listed in this
