Assessor Comments	6 Angus Grown Steers, Vendor Bred, 'Treventy' Angus Blood - Rising approximately 18-19 Months - Large Frame & well grown with very good weight for age - Presenting in forward store to prime condition - 3 mouthed at assessment showing milk teeth - Grass Fed/No Antibiotics - The majority of the hard work has been done & these steers are well advanced for their age & would be suitable to 'Top Off' for heavy feeder or grass fed fattening fattening program - Alternatively, the majority of this lot could suit a select butcher order subject to required specs - Purchase with confidence, a neat line of vendor bred Angus Steers that will turn into very good heavy kill steer/bullocks with a short term turn around given feed - NOTE 1 steer is presenting with an old blue eye/pink eye scaring in 1 eye, buyers are asked to make any price adjustments before bidding on this lot - The agent can arrange transport to NVLX Barnawartha or Wagga Saleyards at an economical price per head upon buyer request
