	Stirry: 2 head		Stirry: 2 head					
	The heifers are exceptionally quiet in paddock but their flight zone needs to be respected in the yards. They are not aggressive but need to be given room and to be moved quickly through the race as they did become agitated.							
Handled With	Bikes , Dogs , Low Stress Stock Handling© practices (TBA) , On foot , Vehicles							
Assessor Comments	These heifers have been drafted on colour and type. These heifers showed more Santa/Shorthorn bloodlines than the other lot in this sale. These heifers have been handled with low stress management practices and ran through the race well (considering they had been preg-tested the day before) but they do need to be given some room. They have been preg tested and are all in-calf to proven Angus heifer bulls.
