	Extremely quiet females that were a pleasure to work with throughout the assessment. Cattle handled with ease and moved swiftly throughout the yards, the odd old girl showing a bit of stubbornness however got moving once a hand was placed on their back..		
Handled With	Bikes , On foot		
Assessor Comments	A great line of big heavy females with 4-8 week old calves at foot, carrying strong carefully sort through angus genetics cows will not disappoint. These females are proven to be very functional and maternal mothers and are doing a great job on their calves. Calves are by Witherswood Proceed P169. Cows have not been re-joined so are ready to meet the bull of your choice. These females are only being offered due to the vendor selling off some land and reducing stock numbers. A wonderful opportunity to source proven mothers that tick all the boxes and are ready for any type of buyer. Note two cows a little proppy when walking with a couple of long hoofs and the odd cracked foot. Please see photos and videos for contentment.
