Assessor Comments	2015 Drop Angus cows & calves, Landfall and Woodburn (Tas) blood. Moderate frame cows doing an outstanding job on their heifer calves at foot (17 - heifer calves averaging 93kg at assessment) and will continue to go forward given the opportunity. These cows have been redepastured to The Glen Angus bull GMJR135 (Please note - 4 cows have white on their udders and 1 cow has a shortened tail) Excellent opportunity to add quality females to your herd.
