Assessor Comments	2015 Drop Angus cows & calves, Landfall and Woodburn (Tas) blood. Moderate frame cows are doing an outstanding job on their steer calves at foot (13 - steer calves averaging 101kg at assessment) and will continue to go forward given the opportunity. These cows have been depastured for 5 weeks to The Glen Angus bull GMJR135 (Please note- 2 x cows have a white splash on their udders) Note extra twin calf. One cow has a small birth mark on shoulder as seen in pictures. Wonderful opportunity to purchase function females in their prime with steer calves @ foot.
