Temperament	<table><tr><td>Yards</td><td>Crush</td><td>Paddock</td></tr><tr><td>Quiet: 13 head Slightly Stirry: 2 head</td><td>Quiet: 10 head Slightly Stirry: 5 head</td><td>Temperament not assessed in Paddock</td></tr></table> Easy, experienced mums to handle. Knew their way through the system, led up the race without any real force needed. Stood on the scales without the use of a back gate to hold them, and exited the crush at the walk, turning around and waiting for their poddies to come through. Just a handful of females doing a bit of stomping on the scales and getting impatient - listed above as slightly stirry.	Yards	Crush	Paddock	Quiet: 13 head Slightly Stirry: 2 head	Quiet: 10 head Slightly Stirry: 5 head	Temperament not assessed in Paddock

Handled With	Bikes , Horses , On foot , Vehicles																		
Assessor Comments	3 Lots of 15x15. Only drafted off in the order they mothered up. These are very nurturing mothers that rear good solid calves. Always looking for, and talking to their them. All females were soundness assessed and all found to be good in the teeth, feet and udders and any non suitable females removed. Milky cows doing a terrific job on their fresh sappy calves, none looking to have ever missed a feed. Females that have had a rough start to life - born in to some tough drought affected areas, But put everything in to their calves which have shown to develop in to good stand up large framed weaners. These are ideal females for someone wanting some breeders with a good wealth of genetics without wanting a very large framed mouth to feed. Note. 4 females with a splash of white on their udder. 1 females with a slight lump on her neck. None of the above deemed detrimental. Please see photos & video for full contentment.
