Assessor Comments	Excellent opportunity to put together a very good quality line of PTIC EU Angus heifers from a high performing commercial herd. Heifers are due to commence calving mid-February for 6 weeks. They weighed 521kg full (443-618kg) at assessment, are of moderate - larger frame, are well grown, and in ideal forward store condition. Wando Estate always purchase high indexing Barwidgee Angus bulls with a balanced focus on the major profit drivers. These heifers would make an excellent herd rebuilding opportunity for any Autumn calving herd. Please note; vendor also has another line of 26 earlier calving PTIC heifers in this sale.
