Assessor Comments Very good quality ACR recorded & EU Team Te Mania Angus cows with fresh young calves at foot. Cows averaged 643kg full (504-756kg) at assessment, calves weighed 103kg (42-155kg)- 15 steers & 13 heifers. These are predominantly larger frame cows bred to produce steers for long-fed Angus programs. High quality genetics have been used for many years using top Te Mania AI and lease Bulls, focusing on high growth and marbling (IMF) - EBV's are available on request. Cows are doing a great job on their calves and would make an great addition to any herd or for someone looking to get a start in breeding from an outstanding cow base - ideal to take home and rejoin. Please note, five animals with white on udder (see photos). Vendor also has another line of 10 x 10 & 9 x 9 cows & calves in this sale at a seperate location (around 10km away) to make up a B-Double.
