Assessor Comments	116 predominately young Angus cows pregnancy tested in calf 5 months + on the 21/1/21. To be sold in two lines of 58 as an even run out of the gate. 48 cows are between 2-5 yo, they are med/lge frame cows that present in score 3 and 4 condition. The lighter cows in the assessment are the younger heifers. There look to be a good number of cows that are heavily pregnant, any cows that calve between assessing and trucking will be given in and any very heavily pregnant cows will be removed. There is 1 Angus/Santa x cow and one cow that has horns. Approx. 20 cows have white on the belly and udder. A great line of strong young females to restock and calve down.
