Assessor Comments	A tidy line of 191 Boer cross Rangeland Does fully weaned and educated with bikes and dogs ready to start your flock or add to your existing breeders! Opportunity to obtain Does that are bred to perform in challenging environments, bred in regrowth country south of Mitchell before being trucked to "Oaklands" Roma approximately 2weeks ago. For the past two weeks nannies have been through a weaning program being handled through yards and handled in the paddock with bikes and dogs consistently. Buyer will notice the effort put into weaning when handling them in the paddock. From a rangeland and rangland/boer cross herd that has entire males running with nannies until weaning at 3 months plus. Step into the opportunities that the goat market has to offer. Nannies are in store condition and would explode on a rising plain of nutrition.
