Assessor Comments	A very handy, light 4 decks of Poll Merino Wether lambs. Very well bred and shorn and are ready to be put on stubbles to be back grounded for the feedlot. Given the chance these wethers should hit the processing weights in next to no time or will be a good article to keep on as wool cutters. These lambs are tops of the Autumn drop lambs with a 10% tail was taken off the bottom of the mob, 3 lambs in sheep assessed had wether horn. please note: In the whole wether flock there was 2 drops Summer(Dec-Jan) and Autumn. All summer lambs were drafted to go to the market but there still could be the very odd summer lamb in assessed flock.
