Assessor Comments	On offer are a NEAT line of 145 Dorper Ewe Lambs that are an April / May, 2021 drop and average 38kg curfewed. Lambs are of good quality and are Preiska Dorper blood, they range from 30kg-50kg and are the Top line of the drop, a small tail was taken out to be left with a nice line not to far away from being able to join. Perfect starting mob or would be an asset to any flock for a bright breeding future. The Ewes have had access to rams due to a continues joining program, cannot guarantee that the ewes are all empty but vendor states that they haven't joined this early in the past. Amongst the line there is one white face Ewe. Great opportunity to secure some young breeders to take into the future. BUY WITH CONFIDENCE
