Assessor Comments	On offer is a very well bred line of 1st X mixed sex suckers. Lambs are out of large framed, pure Willandra blood merino ewes, that were bought ex Marrar district account the Breeder. Lambs are by top quality Cadell Border Leicester Rams. These lambs still present relatively fresh even though they are getting long in the skin. This line presents with a tail removed. Coming out of what has been a cold wet season up in the hills these lambs are on the do and are showing good growth for being the youngest lambs in the drop. There are multiple options for buyers with these lambs in terms of growing out and breeding from the ewe portion and fattening the wether portion. This presents an opportunity for smaller operators to secure some very well bred ewe lambs without having to fork out big money for straight lines of ewes.
