Vendor Comments	Selling a complete drop of border leister mixed sex lambs.
Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.
Assessor Comments	Complete drop of first cross mixed sex lambs (small tail retained). These lambs are still fresh as a result of a good season and still running with their mothers. The lambs were bred out of medium framed (18-19 micron) merino ewes by large framed border leister rams that were purchased locally from Ournie (Upper Murray). 100% of this consignment was weighed and assessed identifying approximately 140 as ewes with the balance (110) being wethers. Any lambs with dag have been bung holed. 3 head had barley grass seeds removed from their eyes at assessment. All lambs eyes will be checked at delivery but don't expect barley grass to be an issue as problem areas were slashed before assessment. Should you require any further information please call.
