| Assessor Comments      | These 420 1st X wether lambs are out of Med-Large frame Pastora blood ewes by the Retallack & Womboota BL Rams. They are the tops of the drop with a 15% tail taken out at assesment. These lambs had had their 2 vaccines, drenched, market crutched and were weaned a week ago onto a fresh clover paddock with unrestricted access to self feeders with Faba Beans. These lambs were fed last year and taken through to heavy export weights by January/February. |            |          |
