Assessor Comments	Sleigh Pastoral offering annual drop of 1030 Wether lambs. Split into two lots (515) being sold as a run out the gate to the first lot delivered. Have been on Toland Rams for 30 plus years, selecting Rams for positive carcass attributes as well as very positive wool traits. Typical of invested genetics and appropriate management, these wether lambs present as a quality line. Skins are clean and presenting well nourished, with a good start in the clip. Plenty of length and body for age. Apart from a small tail that's been removed, pretty much offering the entire drop from Ruffy. Opportunities to purchase large runs of quality wethers don't come often. Weaned on the 6/09. Market Crutched on the 5/10th. Their sisters last year went 17.1 mic and 70% yield. mature Clip av 18.6 mic. Note - Approx 10% present with small Scur come back. Note - small % observed with Dermo off the skin. Note small % observed with water stain on shoulder, not detrimental. odd lamb with dry dag post crutching.
