Vendor Comments	The first draft of our Shelburn bred Probreed wether lambs.		
Assessor Comments	460 principally July drop Probreed (Highlander) wether lambs, 35 kgs at assessment. These lambs have had a great start and are well weaned onto good quality clover and lucerne hay, and supplementary fed oats and lupins.. Lambs have been grain trained prior to weaning. For their age these lambs are showing great length & shape, bone and muscle and are even and fresh, and given good feed should finish quickly and weigh well.
