Assessor Comments	Offering on behalf of AW + SM Munn is the top draft of 180 1st X Ewe lambs. Lambs are MAY/JUNE drops and were weaned later in September. They averaged 38.6kg over the scales at assessment and are continuing to improve with the harder feed and warmer weather. Lambs have been crutched and vaccinated with 6 in 1 and Gudair at marking. They are out of medium to large frame ewes so should continue to grow out nicely. Nice line with a good start to push along to join as ewe lambs or to carry over and grow out to 1.5yo to increase your prime lamb production.
