Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.		
Assessor Comments	This is the second line of a complete drop of Cuyuac composite ewe lambs, purposely bred for sale out of the larger composite ewes out of the flock. They will grow into big ewes. The Cuyuac flock is based on Cashmore Oaklea, Paradoo Prime and Cloven Hills Genetics. This flock is renowned for turning out excellent trade weight lambs at a young age. Vendor only buys the better end of rams and focuses on high index figures for the breed and high growth rates. These ewe lambs present an opportunity for someone to purchase top class ewe lambs out of a large commercially run flock. These ewe lambs have the age and maturity to join as ewe lambs in February/March next year if desired. The vendors ewe lambs this year scanned @ 135% and the adult ewes scanned @ 175%. These ewe lambs come highly recommended. There is also one other line in today's sale.
