Assessor Comments	Offering 34 Cows that have been Vet PTIC in calf to Angus Bulls. These cows have really picked up in the since having their weaners removed from them. Presenting in fresh store to forward store condition. Vet PTIC 1- 2 months with 2 cows being 3/4 months and 2 cows 8 months in calf that will be reassessed on delivery. Please note one cow with sore leg in video not included in sale. Vendor has a run of 18 cows not detectable in the same sale, note bulls removed at assessment - providing an opportunity to be just in calf. Angus bulls purchased from Ascot Cattle Co and Rangelands Angus. Great trading opportunity to not only add weight but calve down also. One cow with fly bite scarring and odd cow with blue eye.
