Cattle flowed very well through the yards and race. Odd cow did become agitated in the crush but calmed almost instantly once back in the mob. As per videos they walked through gates very well.

Assessor Comments

Offering 18 Cows that have been Vet Preg Tested as NON DETECTABLE. Bulls removed at assessment - providing an opportunity to be just in calf, the vet did feel signs of cows being in calf but not far enough to be 100%. These cows have really picked up in the since having their weaners removed from them. Presenting in fresh store to forward store condition. Vendor has a run of 34 PTIC in the same sale. Angus bulls purchased from Ascot Cattle Co and Ranglands Angus. Great trading opportunity to not only add weight but re Preg test and reoffer in coming months. Odd cow with blue eye.
