The lead of these cows started calving 7 weeks ago and care was taken at assessment to remove any cows that were deemed too close to calving and will also be removed at delivery to ensure fit to load guide lines are met. PLEASE NOTE these cows are organic apart from SEVEN COWS ARE NOT ORGANIC (identified by a green tag) and have been running on an accredited Organic property and as such all calves will be eligible for Organic status once born. PLEASE NOTE. 2 cows have slight blue cloudiness on one of their eyes, a number of cows have lumps on their necks from needle vaccinations.
